

Description Climbing wall

We opened our climbing wall the 17th of June 2016 that consists of three routes of different difficulty levels. The pole which the climbing wall is built on is a total of 17,5 meters high and you climb 15 meters along the pole, which also connects to our 25 meters long suspension bridge.

How difficult is the climbing wall?

The climbing wall is adjusted for all types of experienced climbers.

Green: Our easiest route is suitable for rookies and for more experienced climbers.

Yellow: This route is harder and fits more experienced climbers.

Red: This route fits the most experienced climbers and will put you up for a challenge.

Make sure that you enjoy the spectacular view while you are climbing and do not forget to take pictures of you and your friends.

What is included in the adventure?

In the adventure all safety details are included. You can choose if you want one of our safety instructors or if you have a green climbing card you are allowed to use our safety equipment yourself.

15 meter up on the wall you have an amazing view over lakes and forests. Photo: Johannes Daun

What does it cost to climb?

100 SEK / 15 minutes climbing incl guide/instructor

100 SEK / 60 minutes climbing if you bring your own safety instructor

(Please notice that if you want to bring your own safety that person shall present his green card)
